

Jensen Update

January 2011

Today's youth are under constant assault by the forces of darkness and deceit to turn hearts away from the true God. Doe River Gorge exists to help turn the cultural tide by proclaiming Truth that points to and defines the Creator God who deserves our worship and service.

Our family, which includes eleven grandchildren, are scattered between Tennessee and Hawaii. We had the great privilege to gather after camp at the Jensen cabin in Michigan's upper peninsula.

During the summer camp program, Hannah joins Clif, taking snapshots of camp activities while Clif films, edits and produces a video of each of the 10 Adventure Quest weeks. These weekly DVDs are taken home by the campers and shown again and again, refreshing and reinforcing their summer experience. Many kids come as a result of viewing one of the videos with their friends.

Between summer camp seasons Clif produces many video DVDs showing a variety of ministry aspects. In addition to videos and camp photos, he is responsible for the website.
