

We take the danger of the COVID-19 pandemic seriously! Doe River Gorge has taken many actions to reduce the risk of COVID-19 exposure and infection such as: testing all resident staff, regular cleaning and disinfecting facilities and public areas, social distancing, use of masks, etc. However, DRG cannot guarantee that the property and facilities are COVID-19 risk-free. We are controlling the number of attendees to prevent over-crowding. Dining areas are arranged with safe spacing. All Saturday Day Quest guests are scanned for fever, and unregistered visits by the public are prohibited. It is well known that the virus behavior has many unknown factors, but we are alert to any and all information on a daily basis that can affect the health safety of our guests and staff. Please observe the current guidelines issued by state and local health departments and be respectful of other guest's precautions and concerns. If you have questions not addressed in this announcement, please call 423-725-4010.
